Profile

Highly motivated, curiously minded, capable team leader seeking a new career in web development.

Diplomatically minded and well suited to collaborative projects.

Currently engaged in two moderately sized personal projects to gain skills within a PERN stack, as well as utilising OAuth2, PostgreSQL and touching on AWS services.

Learning platforms I've used include Udemy, YouTube, TryHackMe and codewars as well as extensively making use of documentation.

Previously completed first year of a Uni SA Engineering and Mechatronics degree, achieving DSTO Working Links Award.

Fresh from long service leave and excited to explore an unfamiliar industry.

Employment History

Employed with the same company 2009–2021 where I progressively moved through the company to take on expanding responsibility.

Payneham Tavern Assistant Manager

Dec 2020–Feb 2021

- Tasked with assisting this hotel with updating to new company systems
- **Test site for new customer loyalty system company wide**
- Responsible for learning and implementing this system

Hampstead Hotel Acting Venue Manager

Feb 2020–Dec 2020

- Effectively navigated severe business model changes
- Responsible for a team of approximately 25 staff members

Hampstead Hotel Assistant Manager

2017–2020

- Innovated IT solutions to a multitude of areas within the hotel to achieve huge success. Solutions addressed accounting, ordering, compliance and communication using Excel automation and MS Access applications
- Able to consistently perform stringent payroll and compliance checks with great attention to detail
- Played a strong role in maintaining an enjoyable and inclusive workplace culture that celebrated high performance. Had great success with a 'high trust, low control' style and an engaged team.
