Portfolio: https://bradteague.com | Github: https://github.com/bradbrad88

Summary

Full-stack web developer from hospitality Venue Manager background. Undertaking a certificate of full stack development after a year of self-study. Passionate about learning and sharing knowledge, maximising efficiencies and problem-solving.

Technical Skills

Tools and Frameworks: Git, React, jQuery, Node.js, Jest, PostgreSQL, MySQL, MongoDB, Sequelize, Tailwind, Sass, Express.js, OAuth2.0 and Passport.
Platforms: AWS, Heroku, Google Cloud Platform, Firebase and Github.
Software Languages: HTML, CSS, JavaScript and SQL.

Projects

Satisfactory Planner | https://github.com/bradbrad88/satisfactory
- Application to assist players of the game, Satisfactory. Work in progress that aims to provide functionality for thoughtfully locating individual factories, handle inputs and outputs and navigate alternative recipes for items.
- Implemented advanced drag and drop functionality as well as drawing connecting lines between inputs and outputs based on the visible area of the workspace relative to the canvas.
- Next.js, Redux (Toolkit), Typescript and Tailwind.

Coin Charter | https://github.com/bradbrad88/coin-charter
- Collaborative application for inspecting crypto currencies and producing analysis charts that can be shared for review by peers. Discuss with friends whether it is a good time to buy or sell.
- Lead architect, working with project creator to realise their idea.
- Fullstack application using React, GraphQL MongoDB, Webpack, Typescript and Tailwind.

Experience

Hotel Management - Hampstead Hotel   **2017 - 2021 Australian Venue Co.**
(formerly Spirit Hotels)   **Adelaide SA**
- Designed and implemented MS Access solutions to prototype software that assisted the team in performing highly across multiple areas of the hotel; from compliance and stock management to communication and customer relations.
- Maintained a fun, respectful and inclusive work-place by driving a culture that celebrated success and communicated effectively.

Education

Certificate in Full Stack Development   **May - Nov 2022**
The University of Adelaide
Attending a 24 week coding boot camp focussed on full-stack web development skills and collaborative exercises.

Self Study   **2021 - ongoing**
Studied with platforms such as Udemy, Youtube, TryHackMe, freeCodeCamp and codewars. Utilised documentation to successfully implement various technologies.

The University of South Australia   **2012 - 2013**
Electrical and Mechatronic Engineering (first year)
Studied one year of bachelor degree earning the DSTO Engineering and Information Technology Working Links Award.
